SUMMARY

QA engineer focused on embedded and IoT with 14+ years in IT. Completed the Prometheus course “Embedded QA in IoT and DefTech” (certificate with honor): risk-based testing of ESP32 firmware, a Master Test Plan, 39 Python/Pytest automated tests and evidence-backed bug reports. Since 2023 I have been testing the company’s web products: websites, WordPress themes and plugins, a monitoring SaaS, the API of an AI website builder, and security scanning. PM, Tech Lead and COO experience helps me see the whole product and communicate clearly with developers.

SKILLS

Testing	Test cases, checklists, bug reports, regression, exploratory and cross-browser testing, risk-based testing, Master Test Plan, test matrix, RCA
Tools	Jira, Postman, TestRail (basic), SQL / phpMyAdmin (basic), Git, GitHub
Automation	Python, Pytest, pyserial, fixtures, JUnit XML, n8n
Embedded	ESP32, Arduino, Raspberry Pi, Wokwi, PlatformIO, UART, I2C, GPIO, Logic Analyzer + PulseView
Security	OWASP ZAP, Burp Suite, Google Dorks (automated scanning)
AI	AI-assisted testing: GPT, Claude, Codex, DeepSeek

EXPERIENCE

QA Engineer (manual, exploratory) · Syntrex / Synergy Solution — 2023 — present

- Alongside my main role, tested about 10 websites, 3 plugins and about 30 WordPress themes
- Tested a website monitoring SaaS and a WordPress security and maintenance platform
- Tested the API of an AI website builder: found about 10 defects (SEO metadata, robots.txt, 404s, bot protection)
- Automated security scanning (OWASP ZAP, Burp Suite, Google Dorks): exposed service files, vulnerable plugins — all fixed
- Assigned fixes to developers, HTML/CSS developers and designers and verified them

AI QA Engineer / Tech Lead · Synergy Solution — 2026 — present

- AI QA and test automation (GPT, Claude, Codex, DeepSeek), technical leadership, n8n process automation; webhook testing in Postman

COO / n8n Automation Engineer · Synergy Solution — 2025

- Operational management of the company, n8n process automation

Development TeamLead · Syntrex — 2023 — 2024

- Led the development department; WordPress websites and themes (PM + QA)
- Designed a site cloning process with Duplicator: about 3,000 websites deployed, website creation time cut roughly in half; trained colleagues

Android Developer / Content Manager · ISoft Consulting — 2022

- Android apps (Kotlin), mobile app analytics, content and SEO

Head of Digital / SEO Team Lead / PM · AppFox — 2018 — 2022

- Led a cross-functional team of 12 (development, QA, design, content, SMM): hiring, specifications, acceptance of work

SEO / PPC Specialist; Website Administrator · various companies — 2012 — 2018

- Technical SEO audits, Google Ads, website migrations; site process optimization increased sales by 80% in a year

Sole proprietor · FOP Kofan — 2024 — present

- IT work under contracts; own online store on Prom.ua

PROJECTS

ESP32 IoT Node — Embedded QA Case Study · github.com/jobsearchdev/Embedded-QA
Risk-based testing of an IoT node in Wokwi: Master Test Plan, 32 tests in the matrix, 39 Pytest tests over UART, I2C analysis in PulseView. 9 Critical and 14 Major defects, NO-GO decision.

n8n automations for SEO · github.com/jobsearchdev/n8n-automations
Page indexing via API, sitemap.xml monitoring by lastmod, Google rank tracking via DataForSEO; webhook testing in Postman.

API testing of an AI website builder (NDA)
Generation requests via API and validation of the generated websites: SEO metadata, robots.txt, headers, links, bot protection.

EDUCATION & CERTIFICATES

- Prometheus EMB101 “Embedded QA in IoT and DefTech” — certificate with honor, 2026
- Udemy “Software Testing for Beginners”, 2026
- Nanit Robot: Python & AI, Linux for Engineers, GitHub for Engineers, C++, Drone Master FPV (course series), electronics, Raspberry Pi, 2026
- robot_dreams: Computer Vision, 2026 · Molfar: OSINT, 2023
- Kryvyi Rih College of Economics and Management (KNEU) — Business Finance, 2006–2009
- Novyi Buh Pedagogical College — Primary Education and Computer Science teacher, 2001–2005

Recommendation from course mentor Oleh Moroz — on LinkedIn: linkedin.com/in/evheniiprofile
